(6) Submission of the Jackson Report to Nicholls 25X1
It was agreed that we should wait until after the NSC had acted on the report and then possibly give Nicholls a carefully sanitized edition thereof. There was considerable discussion of the Jackson Report and in the course of it Roger Kyes read to me the comments of the Joint Chiefs of Staff taking vigorous objection to the assumption of responsibility
(7) There was discussion of the possibility of sending wheat to Yugoslavia. It was felt that this would require legislation, unless it could be done under some existing MSA authority.
(8) National Research Council's Transportation Request for Manila Conference
Roger Kyes said that under their existing procedures they could not grant such transportation without consulting Congressional leaders and under the circumstances they did not feel they could do this.
(9) Resolution to Send Diplomatic Representatives to the Ukraine and Byelo, Russia.
There was some discussion of this resolution and it was felt that on the whole it better be allowed to die. While it was recognized that
more difficult than ever to deal with. It was also generally agreed that the
resolution would die in committee at least for this session of the Congress.
(10) Albania
I agreed to prepare and submit at the next meeting a paper on Albania. ALLEN DULLES
